Vineyard: The Terraces estate vineyards are between 300 and 500 feet in elevation located in the Eastern foothills of the Rutherford AVA. The well drained soils are composed of the volcanic rock known as Rhyolite. Moderately warm in temperature, the vineyard is still marginally influenced by early morning fog.

Vintage: The 2020 vintage was a challenging one to say the least. With Covid in full effect and the multiple wildfires burning in our backyard, we had to pull out all of the stops to make the great wines that you have come to know and love. We had light rainfall and a warm summer which leads to great wines being made in the fall. Although we did not get to make all of the wines that we typically do, the ones that we did came out amazing, and rich in both texture and color.

Production: Hand picked and sorted prior to being removed from the stems and pressed. Very gently pressed in a one-ton basket press, the juice is left to settle. A combination of wild and domestic yeasts are used to maximize complexity and varietal characteristics. Fermented at cold temperatures in stainless steel tanks until almost dry, the wines are moved sur lie to mostly neutral French Oak white wine barrels. Stirred every two weeks until bottling, the wine develops richness that is balanced by the prevention of malolactic fermentation.

Tasting Notes: We believe Rosé should be made with the best fruit available, and this year that happened to be Cabernet Sauvignon, Napa Valley's most coveted varietal. Our 2020 vintage of estate grown Cabernet Sauvignon beautifully showcases the beauty and finesse of Rosé. 100% Cabernet Sauvignon, with very pale color and aromas of cherry, strawberry, and a touch of butterscotch. The palate is rich with bright acidity. Flavors of fresh dark fruit that compliment. This wine is a true beauty, and it will blow your mind!

The Terraces: With 136 years of grape growing and 36 years of winemaking, our history inspires us to create singular wines of astonishing value. Each vintage we produce makes up less than 3500 cases. We encourage you to visit on your next trip to Napa!
